Howdy from the Texas Commercial Airport Alliance!

We know the COVID-19 crises has affected everyone around the world and we understand you may have concerns about travel right now, but we want you to know that Texas airports work hard every day to ensure that our friends, families and passengers are safe.

Texas Airports have incorporated recommendations by the Centers for Disease Control on disinfecting airport surfaces as well as taken steps to ensure social distancing markers throughout our airports to maintain safe distance protocols.

Texas airports are also using cutting edge products and technology to enhance our cleaning efforts and working with our partners to make sure your experience is the best it can be.

Because we are not just flying passengers, we’re restoring your confidence to soar!

Meanwhile, we’d like to send you a few coloring and activity pages to remind you of all the places you can fly to in Texas.

Sincerely,

[Signature]
