## **Airport Launches New Website, New Logo**

**EL PASO, TEXAS** – El Paso International Airport (ELP), in collaboration with the City’s Department of Information Technology Services (DoITS), launched a new website this week. The new FLYELPASO.com offers a more user-friendly and visually appealing interface and is responsive to all mobile devices. The site’s homepage features ELP’s new logo and branding colors.

“El Paso International Airport is always looking for ways to improve our customer service - our new webpage offers customers an enhanced resource for information with our new mobile web site,” said Director of Aviation Monica Lombraña. “This all falls in line with the City’s strategic goal of promoting transparent and consistent communications among all member of the community; with the key focus on Customer Service.”

Key features include:

- New logo & branding (colors)
- Responsive web design – simple navigation menu, website adjusts to desktops, mobile devices and smartphones
- View menus of restaurants in both pre-and post-security checkpoints
