Airport Reopens Short-term Parking Lot Closed Temporarily During Construction Project

EL PASO, TEXAS – The El Paso International Airport (EPIA) has reopened its short-term parking lot which was closed during the construction of the recently completed Rental Car Center.

The lot contains approximately 300 additional short-term parking spaces and features additional Click and Park program parking spaces located near baggage claim. The original Click and Park spaces near the terminal entrance will remain.

The Click and Park program allows airport visitors to go online to make reservations to have parking space waiting for them upon arrival at the airport. The process saves them time by eliminating the need to drive around the airport's parking lot in search for an available parking space.

The Click and Park parking fee is \$5.00 per day in addition to the standard short-term parking fee(s). The service is easy to use. Visit <http://www.elpasointernationalairport.com/parking/reserved-parking> for reservations.

For additional information about the El Paso International Airport visit: www.flyelpaso.com.
